

National Institute for Storage Tank Management 10th Annual International Aboveground Storage Tank Conference and Trade Show

May 9-11, 2007

Rosen Shingle Creek Hotel, Orlando, FL

The National Institute for Storage Tank Management (NISTM) has scheduled the 10th Annual Aboveground Storage Tank (AST) Conference in Orlando, Florida, on May 9-11, 2007 at the Rosen Shingle Creek Hotel. This international conference and trade show for Aboveground storage tank systems provides one of the best opportunities to hear and discuss important environmental and operational issues, learn about the most recent advances in technology, and network with industry and government specialists. This conference is designed for engineers, managers or other individuals involved with operation, construction, environmental compliance, spill prevention and response or management activities associated with aboveground storage tanks and piping. Nationally recognized experts will provide the latest information available on tank management in this three-day course. You can get answers to your questions about the most recent issues and technological advancements in API Standards, Construction, Spill Response, Internal Lining, Piping, Overfill Protection, Risk Based Assessments, Secondary Containment, Tank Cleaning, Internal Inspections, Terminal Operation, Pipeline Safety and More!
